EVERETT-MOORE SHORT OF CASH

Cleveland Syndicate with \$130,000,000 Capital is Badly Embarrassed.

MADERUN ON BANK

More Than 1,200 Miles of Electric Lines Owned by Big Combine.

BANKERS TAKE HOLD

Cleveland, Jan. 3.—H. R. Newcomb, chairman of the committee of bankers appointed to assist the Everett-Moore syndicate through its financial embarrassment said this morning that the members of the syndicate were still conducting their own affairs and will continue to do so until the consent of all the banking houses holding securities and all the individuals holding claims against the syndicate be settled and its affairs secured.

The impression having got abroad that the Dime Savings bank was involved in the Everett-Moore trouble a run began this morning. The president announced that everybody would be paid in full.

BIG SYNDICATE IN STRAITS

Everett-Moore Company of Cleveland, O., Being Aided by Banks Cleveland, O., Jan. 3.—The Everett-Moore syndicate, owning or controlling many electric railway systems and telephone companies in the states of Ohio and Michigan, with an aggregate capitalization of about \$130,000,000, has passed into the control of a committee of seven prominent Cleveland bankers as the result of temporary financial embarrassment. The syndicate has been granted an extension of its credit for eighteen months by its principal creditors and the officials of the syndicate are now at work on a plan of action which will probably result in a satisfactory adjustment of its affairs. The committee chosen expresses the firm belief that the concern is entirely solvent and that its embarrassment, will be only temporary. The Everett-Moore syndicate is accredited with controlling more than 1,200 miles of urban and interurban electric lines in Ohio and Michigan, with many new extensions still in course of construction. Among the telephone properties owned outright or controlled by the syndicate are the Cuyahoga Telephone company of this city, with upward of 10,000 subscribers; the United States Telephone company (long distance), the Federal Telephone company, the Stark County (Ohio) Telephone company, the Columbian County (Ohio) Telephone company, the People's Telephone company of Detroit, the Wood County (Ohio) Telephone company, and a number of others, in which the Federal Telephone company is the controlling factor. Among the more important electric street railroad properties in which the syndicate is largely interested are the Cleveland Electric Railway company, the Detroit United Railway company, the Toledo Railway and Light company, the Northern Ohio Traction company, the Cleveland, Palisades and Eastern Railway company, the Detroit and Toledo Shore Line Railroad company, and the Lake Shore Electric Railroad company. All of these lines are declared by the committee to be, with scarcely an exception, in good physical condition, perfectly solvent, and in no wise embarrassed.

Rev. John Wesley Beach Dead. Middletown, Conn., Jan. 3.—The Rev. John Wesley Beach, L.L.D., formerly president of the Wesleyan university, is dead at his residence here, after a long sickness due partly to old age.

WILL PROBE THE RAILWAY MERGER; FEDERAL INVESTIGATION ORDERED

Combine of Northwestern Roads Will Be Looked Into and Action May Be Taken Against Company.

Chicago, Jan. 2.—The Interstate Commerce commission has decided to move against the Northern Securities company and investigate the combine of the Great Northern, Northern Pacific, and Burlington railroads. The first gun will be fired in Chicago next Wednesday.

The Interstate Commerce commission will probe the entire matter of "community of interest" between the great railway systems, but the specific investigation will be aimed at the Northwestern railroads.

Hundreds of witnesses, among them many of the leading railway promoters and owners in the country have been summoned to appear in Chicago next Wednesday to testify before the commission.

All the Western railway magnates have been summoned to appear, and after the investigation in Chicago, which may last weeks, has been concluded, the commission will resume its hearings in New York and call

STEAMER WRECKED; OVER 40 DROWN

Ship Walla Walla, Plying Between Frisco and Northern Ports, Lost Off Cape Mendocino.

Eureka, Cal., Jan. 3.—The Steamer Walla Walla, flagship of the Goodsell, Perkins & Co., Pacific coast steamship line, plying between San Francisco and northern ports, was wrecked off Cape Mendocino this morning. Over 40 were drowned. Sixty passengers were saved and are now at Eureka.

Eureka, Jan. 3.—People on a boat from the scene of the wreck say that an unknown iron ship ran into the Walla Walla at 4 o'clock Thursday morning. It is believed the first reports of the casualties are exaggerated. Tugs have been sent to the rescue. The Walla Walla's eight boats and four rafts were in the water when seen by the boat reporting her. Later they brought in seven passengers, they started in with thirteen but six were lost. The Walla Walla left San Francisco Wednesday with 64 passengers and a crew of 74. How many, if any, passengers were picked up between here and Eureka is not known.

ST. PAUL ENGINE BROKE THE RECORD

New Type Made the 85 and 2-10 Miles Between Chicago and Milwaukee in 87 Minutes.

Chicago, Ill., Jan. 3.—One of the Milwaukee's new mammoth engines has broken the record between Milwaukee and Chicago. On New Year's eve the new compound Atlantic type engine, No. 921, made the eighty-five and two-tenths miles from Chicago to Milwaukee in eighty-seven minutes, or one hour and twenty-seven minutes.

The previous record is said to have been one hour and thirtytwo minutes and the fastest schedule of the Milwaukee calls for the run in one hour and forty-five minutes. During three and four-tenths miles of the distance between Caledonia and Lakewood the train maintained a speed of 102 miles an hour. The distance between these two stations, three and four-tenths miles, was made in exactly two minutes.

Considering the fact that no preparation was made for the run, and considering the conditions, the run is remarkable.

SCOUTS TRICKED BY BOERS.

Reports of Her Release Are Denied by the Minister of the Interior at Sofia.

Sofia, Jan. 3.—The Minister of the Interior says that the report that Miss Stone and Mme. Tsilka were released is untrue.

London, Jan. 3.—The Sofia correspondent of the Daily Telegraph has cabled an unconfirmed rumor to the effect that Miss Stone and Mme. Tsilka were liberated in Turkey on Jan. 1, and that the Americans who conducted the negotiations resulting in this reported release agreed, in the presence of the captives, to maintain absolute silence concerning the captors. If this promise is broken, concludes the correspondent, vengeance will be wreaked upon the American mission.

London, Jan. 3.—A dispatch to the Central News from Vienna says a report has been received there via Sofia to the effect that Miss Helen M. Stone, the captive American missionary, has been released. The report lacks confirmation.

FIND NEW EMBALMING PROCESS; WILL PRESERVE BODIES FOREVER

Egyptian Methods Outdone—No Shriveling as in the Case of Mummies—Memphis Man Makes Experiment Upon the Body of a Dog.

Memphis, Jan. 2.—Charles B. Lewis of Memphis believes he has discovered an embalming fluid the luster of that used by the ancient Egyptians. The fluid prepared by Mr. Lewis has been used in an experimental way by the Memphis undertakers for several weeks, not long enough to demonstrate all that is claimed for it, but long enough to show that it excels any of the preserving essences now used by embalmers.

Mr. Lewis is a practical embalmer of many years' experience. He asserts that his discovery is superior to the embalming preparation used by the Egyptians, for while his infusion will preserve the subject for all time, humanly speaking, as did that of the ancients, it prevents the shriveling up that was inseparable from Egyptian embalming and it does not call for the swaths and bandages in which all Egyptian mummies were encased.

It is claimed also that while in full

INSURANCE FEES GROWING RAPIDLY

The Receipts of the Department at Madison Have Increased More Than \$4,000 in 1901.

Madison, Wis., Jan. 3.—(Special)—The receipts of the state insurance departments from taxes, license fees, agents' certificates, etc., increased more than \$4,000 in 1901 over the previous year, and are running up toward the half million mark. The total last year was \$35,793.46, as against \$41,318.87 for 1900. The four big items are: Taxes, \$385,465.28; agents' certificates, \$31,143; filing annual statements, \$8,135; licensing fees, \$4,200. All this money is turned into the state treasury.

A. H. Long, the well-known attorney of Prairie du Chien, was today appointed deputy commissioner of the bureau of labor statistics, to succeed Stephen W. Gilman. The salary is \$1,500 per year.

MISS STONE STILL WITH BRIGANDS

Reports of Her Release Are Denied by the Minister of the Interior at Sofia.

Sofia, Jan. 3.—The Minister of the Interior says that the report that Miss Stone and Mme. Tsilka were released is untrue.

London, Jan. 3.—The Sofia correspondent of the Daily Telegraph has cabled an unconfirmed rumor to the effect that Miss Stone and Mme. Tsilka were liberated in Turkey on Jan. 1, and that the Americans who conducted the negotiations resulting in this reported release agreed, in the presence of the captives, to maintain absolute silence concerning the captors. PICK NEW PRESIDENT

University Regents Believed to Have Reached Decision—Appointee's Name is a Secret.

Madison, Wis., Jan. 3.—The special committee of university regents recently appointed to recommend successor to President C. K. Adams, resigned, met here tonight and canvassed the availability of a number of prominent educators mentioned for the position. What action, if any, was taken is not known. Every member of the committee absolutely declined to talk.

Notwithstanding the refusal of the committee to talk, the impression prevails that it reached some kind of an understanding last night and would, perhaps, be ready to make a report at the full meeting of the board three weeks hence. It is believed, too, that the committee is negotiating with some available men for the place, but who they cannot be learned.

SPARKS FROM THE WIRES

Vienna, Jan. 3.—A mob recently stoned fourteen Jews to death at Szwinska, Galicia. The property of the Jews was then burned. The ringleaders were arrested.

Parkersburg, Va., Jan. 3.—Three men were killed in a boiler explosion in the Dodridge County oil fields. The dead: Harry Rhoden, Merrick Frick, James Ash.

London, Jan. 3.—A rumor is current of an attempt to assassinate Lord Milner in Capetown.

London, Jan. 3.—It is believed that the unknown who gave a million dollars to King Edward for the erection of a "consumptives" sanatorium is Sir Ernest Cassel, one of London's merchant princes.

GREETINGS FOR HENRY C. PAYNE

Largely Attended Reception at the Pfister Hotel in Milwaukee

Last Evening.

Milwaukee, Jan. 3.—The reception given at the Hotel Pfister last evening to Henry C. Payne was largely attended. Mr. Payne was assisted in reciting his friends by President Ira B. Smith of the Merchants' and Manufacturers' association, under whose auspices the reception was held; E. A. Wadhams, F. W. Silver, Fred T. Goll, John C. Kerch, E. Zohrbaum, John E. Hansen and Secretary L. C. Whitney of the association.

The guests descended by elevator to the parlor floor, where they extended best wishes to the new postmaster general and then descended by the main stairway. Mr. and Mrs. Payne will leave for Washington next Monday. They will close their home here.

At Washington they will stop at the Arlington until they are able to find such a house as they desire, when they will give up their Milwaukee home while Mr. Payne is in official life in Washington.

SUPPOSED DEAD; MAN COMES TO LIFE

James Morrow, a Former Resident of Lima, Wis., Claims a Fortune in New York.

New York, Jan. 3.—After an absence of nearly thirty years in Illinois and Wisconsin, during which he was officially declared dead by a Justice of the supreme court, James Morrow, nephew of William Mahon, who made more than \$400,000 during his management of the Haymarket in the '70s, and who died two years ago, leaving Morrow a beneficiary in his will, has reappeared, as though from the grave. He asks that he be declared to be among the land of the living, that he may participate in the distribution of his uncle's wealth, his share of which amounts to about \$80,000.

Morrow was born of poor parents in this city in 1848, and when about 3 years old was committed to the half orphan asylum, his mother, Mrs. Ann Morrow, sister of William McMahon having died. After spending a short time in the asylum Morrow was taken to Illinois and indentured to David Hogoboom of New Lebanon in DeKalb county. Since then he has led a varied career.

He enlisted March 16, 1867, in the Tenth United States Infantry, where he served three years. After his discharge he came to New York and later went to Newark, N. J., where in 1872, he married Mary Cummings. Shortly after his marriage Morrow left for the West, telling his wife that he would send for her soon. He went to Lima, Wis., and from there to Clay county, Illinois, where he received word that his wife had obtained a divorce on the ground of desertion. In 1880 he remarried and has since lived in that section.

FIGHT FOR CONTROL STILL UNCERTAIN

Hanna and Foraker Forces in Ohio in a Bitter War for Control of the Legislature.

Columbus, O., Jan. 3.—With causes for the purpose of nominating officers for the legislature but little more than 24 hours away, the situation in the fight for the control between Hanna and Foraker is as uncertain as ever. Leaders on the field asserted that while the main issue appears to be one between the two senators, it is not a fact beneath the surface. Friends of Foraker are for Hanna's candidates and friends of Hanna are for Foraker candidates, due merely to local, personal or other reasons. The Foraker people claim to have 43 pledges out of 68 in the house, but admit that they are doubtful. The best unbiased estimate today gives Foraker speakership candidate, 39; McKinnon (Hanna candidate), 39.

At noon today there were strong indications that the sands were slipping from under the Foraker faction, at least so far as the house is concerned. Governor Nash today came to Hanna's rescue and is calling in all the wavering members and urging them to vote for the Hanna candidate. It is reported that state patronage is being held out to those who cannot be won by influence. The Foraker men plainly show their alarm although still claiming victory. Hanna's men are so much encouraged they are now making desperate efforts to reclaim the senate which heretofore they have practically conceded to Foraker.

WILL CHRISTEN THE EMPEROR'S YACHT

Washington, D. C., Jan. 3.—It is authoritatively announced this morning that Alice Roosevelt will christen the Emperor William's yacht.

JUDGE ELLIOTT DIES AT CARD GAME; IS STRICKEN BY HEART DISEASE

Milwaukee Jurist Was One of the Notable Men of Wisconsin—Founder of Whist Club.

Milwaukee, Jan. 3.—Judge Eugene S. Elliott, of the Circuit Court dropped dead suddenly at the Milwaukee Whist club last night while playing a game of whist. Judge Elliott had attended the reception to Henry C. Payne at the Pfister hotel and crossed the street to the rooms of the club in the Goldsmith Building. He sat down at the table with a party of friends, apparently in the best of health and spirits. The sixth hand had been dealt, when the judge stepped into another room for a drink of water.

Returning he seated himself, when his companions noticed that he did not pick up his hand and had settled back in his chair. One said, "The Judge is ill," and all sprang to their feet. He was carried into an adjoining room, but was dead before he was laid down.

Judge Elliott was one of the notable men of the state and was widely known all over the country through his connection with the American Whist congress, of which he was one of the founders, serving as its first president and for the two succeeding terms, when he retired. At the meeting of the congress here last fall the members showed their affection for him by presenting him with a valuable remembrance of the ten year's life of the congress.

He was a prominent Mason, having been twice grand master of the Wisconsin grand lodge and once grand commander of the Knights Templar.

At the municipal election in 1886 he was elected city attorney on the republican ticket and was re-elected in 1888. He was chairman of the Republican National convention of 1896, where there was a lively contest for the honor. Henry C. Payne, the rival candidate, finally withdrew when it was found that Elliott had the support of the Milwaukee delegation by a large majority.

FARMERS WILL GO TO MADISON

Secretary True Speaks for Agricultural Meeting February 5 and 6.

GOVERNOR TO TALK

Messrs. Hoard, McKerrow and A. L. Fisher Will Also Deliver Addresses.

PROGRAM IN DETAIL

Madison, Wis., Jan. 3.—Secretary John M. True of the Wisconsin state board of agriculture today completed the program of the convention of agriculturalists to be held in the senate chamber of the capitol under the auspices of the board Feb. 5 and 6. A number of copies of the program will be printed at once and circulated throughout the state.

A feature of the convention will be an address by the governor at 3 o'clock in the afternoon of the first day, the board of agriculture, the Wisconsin Agricultural Experiment association and the short course alumni holding a joint session to listen to it.

Former Governor W. D. Hoard of Fort Atkinson will also make an address at this time.

Some Interesting Papers

At 9 o'clock Wednesday morning a paper on "Growing Farm Vegetables" will be read by Delbert Utter of Caldwell; one on "Culture and Cure of Tobacco," by A. L. Fisher, of Janesville; and a third on "The Beet Sugar Industry," by A. F. Postle, of Menomonie Falls.

At 10 o'clock in the afternoon of that day, W. D. Frost of Madison will discuss "Some Problems in Rural Hygiene," and former Assemblyman George Wylie of Leeds, will talk about "Telephones in Farmers' Homes."

The morning of the second day will be devoted to an address on "The Importance of Treating Seed Oats to Prevent Smut," by Prof. A. R. Moore or the university; one on "The Agricultural Resources of Northern Wisconsin," by L. K. Wright, of Wausau, and a third on "Lessons From the Drought of 1901," by Thomas Convey of Ridgeway.

The Farmer's Cow

At the closing session in the afternoon Professor E. H. Farrington of the university will talk about "The Farmer's Cow," Frank W. Harding of Waukesha, about "Shorthorn Tendancies as Shown by the International Fair," and Professor W. L. Carlyle of the university about "Live Stock Judging at Fair."

Other associations that will meet here during the same week are the Wisconsin State Horticultural society, Wisconsin Agricultural association, Wisconsin Bee-Keepers' association, Wisconsin Live Stock Breeders' association and the Wisconsin Association of Veterinary Graduates.

Reduced railroad rates will be granted on all roads.

BRILLIANT SOCIAL EVENT LAST NIGHT

Mrs. A. J. Harris, Miss Shumway, and Miss Agnes Shumway Entertained Their Friends.

The winter social season has seen many pretty parties but none of them has surpassed the brilliant event at which Mrs. A. J. Harris, Miss Shumway and Miss Agnes Shumway were the hostesses last evening. The ladies entertained handsomely at East Side Odd Fellows' hall and their hospitality was enjoyed by about one hundred and fifty young society people.

The hall into which the guests were welcomed never looked prettier than on last evening.

In the north-east corner of the room the guests were welcomed by Mr. and Mrs. A. J. Harris and the Misses Shumway. As soon as the first greetings were over and dancing began, the exquisite music being furnished by Harden's orchestra, of Clinton. The musicians were partially concealed behind a bank of palms and oriental hangings which were draped over the railing of the orchestra stand. The music was perfectly entrancing and in spite of the fact that the request was made that no encores be called for, several of the dances were so irresistibly well-played that the guests insisted on their repetition. An especially pleasing feature of the evening were the instrumental solos played while the guests rested from the dancing.

During the evening frappe was served, the daintily laid table being presided over charmingly by Misses Elizabeth Wilcox and Lucy Fox. In the dining hall below an elegant two course luncheon was served at small tables. A mass of holly formed the center piece for each table and out of the foliage rose a silver candlestick bearing a red-shaded candle. The refreshments were delicious and the guests were waited on prettily by the Misses Vera Wilcox, Elizabeth McKey, Florence Palmer, Eureta Sutherland, Marjorie Mouat, Eureta Kimball, Louise Merrill and Mary Stevens.

Among the guests from out of the city were the Misses Crane, Kelly and Lesure of Menomonie, Wis.; Mrs. Ralph Wheeler, Chicago; Miss Williams, New York City; Miss Parsons, Toledo, O.; Miss Mollie Colburn, Buffalo, New York; Mr. Watermeyer, Milwaukee; John Kelly, Menomonie, and Charles Dow, Madison.

NEW FRATERNITY FOR THE BOYS

Secret Society in Which the Youngsters Are Trained to Loyalty and Good Behavior.

The O. of A. Y. is a fraternity of boys between the ages of ten and eighteen years, organized into a secret society on the general plan of all such orders, with its lodge rooms, and necessary paraphernalia, its degrees, offices, regalia, badges, buttons, and pass-word. The pledge secrecy makes an exception of parents, guardians, and the applicant's priest or pastor. In all other particulars this society is operated under the control of its own officers as any other secret society. Each member pays an initiation fee of 25 cents, and 30 cents monthly dues thereafter. When a member has passed the degrees he is known as right and has attained the full liberty and privileges of the order. A handsomely engraved certificate of membership is then given him and he is entitled to wear the O. of A. button. When a member passes the degree he becomes a past-right and loses the privilege of holding office or voting, but in all other respects continues in regular standing so long as he pays his dues.

The degrees are three in number. The red, white and blue, each as its secret order of initiation and its special lesson. While these lessons are very strongly impressed and are of the highest possible moral value, they do not touch the question of religion. The boy is pledged to a manly effort to live uprightly, not to lie, steal, cheat, nor swear. To be kind to the old and feeble and to all dumb animals. He is particularly pledged to be loyal to the American flag and the government it represents. Always to respect and honor the president, to obey the laws of the land, and never to become an anarchist. He is called a Right because he has pledged himself to try and do right and the word "remember" on the button of the order that he ever carries with him is to remind him constantly of these pledges. The lodge meets every Friday night. It elects its own officers every six months. The parent lodge is called the Criterion Lodge of Chicago. Other lodges may be formed in each ward of any city in the United States upon application to the parent lodge for a charter. Honorary members (adult males) may be proposed and elected by the lodge, but they can neither vote nor hold office.

Honorary membership dues may be fixed at 50c per month, in this way fathers and others interested in boys may enter into the work and see its results at the same time help increase the lodge dues.

Primarily it is to save boys and teach them to become good citizens. It is a work of charity. All are

required to pay their way but the cost of everything is nominal. The first requisite is cleanliness. Each is made responsible under a solemn pledge. All income from whatever source goes into the hands of the regularly elected treasurer of the lodge and should more than meet expenses after the lodge has its working paraphernalia, as its only expense then is the rent of the lodge room. Church or school room may be used to good advantage. In connection with the lodge a regular club room may be established if so desired similar to the rooms of the Criterion Lodge O. of A. Y., No. 1,

"Children love Mrs. Austin's Wheat Food, because it tastes good, better than oatmeal and easily prepared. Ask your grocer for it."

In spite of the fact that 1901 crop of tobacco has been run down since it was growing, there is an inclination on the part of the dealers to purchase it, and take a chance on getting their fingers burned.

The dealers do not claim the crop is valueless but they do claim that it is being held too high by the farmers. The entire 1901 crop would be soon be brought up if the price was such that the dealer could see a fair profit in handling it.

Many of the large manufacturers of the east have put in immense stocks of 1900 Wisconsin and figure that they can go through the year and be independent of the 1901 crop.

In a case of this kind the dealer that has a large holding of 1901, may have to look to the foreign markets to dispose of the goods.

Tobacco buyers as a natural thing will buy as much of a crop which suits itself to their purposes. This is exactly what is the matter with Wisconsin's crop of 1900, and that is why the buyers are sent out after all they can get of it. It does not speak admirably for the Badger state's crop.

The reason for stocking up to the largest possible extent is that when a uniform lot of tobacco is in hand the product of the factory remains uniform. Irregular grades are what manufacturers have most to contend with, to be sure, and on the whole it is therefore only natural to secure the largest holdings.

It is not profitable in view of all this, to invest heavily in the crop of 1901 at this time at the present high prices of the leaf, according to a dealer. This is only true when considered in one way. The 1901 crop which is first class and certainly lacking but little in uniformity, will be gobbled up by the big dealers just as well as the crop of last year. But the question is, what will be the prices next year? Tobacco buying is as much of a speculation as grain.

The recent damp, warm spell has been very favorable for tobacco growers and about all the tobacco then on the poles came into condition to be taken down for stripping.

No systematic buying has yet developed among the dealers, but many of them say they will start out after the holidays and see what the crop looks like. It is safe to say that the majority of the good crops will be safely stored in the warehouses before spring. The poor stuff will likely remain on the growers' hands

COLD WAVE COMES THIS WAY

By Tomorrow It is Expected We Will Have Zero Weather

A cold wave which will last three or four days is coming, according to the calculations of the weather man. Today and tomorrow the weather will be fair, with crisp winds from the northwest. The temperature today will be from 8 to 10 degrees above zero. On Saturday it will drop to the zero point, and it may go lower.

"This cold snap will not be so severe as the one that preceded it," said Prof. Cox in Chicago. "While we will have some cold weather, the indications do not point to any unusual condition for this time of the year."

Keeping in Tune

Keeping a piano in perfect tune is a difficult task unless the piano was carefully tuned and thoroughly tested in the factory.

Like a Watch

A piano must be regulated to do accurate work. Where a manufacturer hurries his instruments onto the market the result is an unreliable lot of pianos. Each of our Hardman pianos leave the factory with a written guarantee.

In domestic leaf the volume of business must certainly have surprised that of any previous year, and imported leaf it more than equalled the average of normal years.

The new year opened with a general demand for domestic wrapper leaf

and in order to satisfy this abnormal early demand nearly one-third of the entire new crop had to be force-sweated and was sold six months before the balance came into the market in its naturally mature condition.

And when it did come it went off in a rush, first the more desirable grades at fancy prices, then the darker leaf moved off, and the close of the year seen nearly the entire domestic wrapper leaf crop of last year lifted from the market.

Rarely, if ever before did Connecticut seconds bring as high prices as they did this year, and an offer was equivalent to a sale. Likewise had the Wisconsin and Onondaga all their own way. Whatever the cause, it is a fact to be placed to the credit of 1901 that the binder stock was in strenuous demand and commanded higher and more remunerative prices than for many a year. Nor was the filler market a neglected quantity.

Although large transactions were scarce, sales were so steady and continuous that the market had closed out of old filler stock.

The domestic leaf market has therefore all reason to remember gratefully the year that is so soon to leave us—U. S. Tobacco Journal.

HARD BATTLE WITH A GALE

Chatham, Mass., Life-Savers
Rescue the Endicott and
Her Crew.

EXCITING FIGHT FOR LIFE.

Sailors on the Coal Schooner Suffer
Intensely During a Day and a Half—
In a Northwest Blizzard Off Cape
Cod.

Chatham, Mass., Jan. 3.—The crew of the Chatham Life-saving Station returned at noon after a day and a half of exposure in assisting the crew of the schooner Emma D. Endicott, Captain Rogers, bound from New York for Portland with a cargo of coal. Captain Rogers said he left New York Sunday night, and everything was all well until Tuesday night, when he struck the northwest blizzard ten miles north of Cape Cod. The boom was loosened and let down onto the long boat so that the mizzen mast also worked loose from its socket and threatened to carry away all the masts by the board. The vessel was being headed about and worked back off Chatham. The sailors suffered greatly from the intense cold. They were kept constantly at the pumps as the vessel was leaking. When the life-savers reached the Endicott one pump had given out and the vessel was almost sinking.

Rescue Was Perilous.
Captain Eldridge of the life-saving crew said on his return:

"Nobody ashore can form any idea of the condition of the elements when we rounded under the stern of the schooner and attempted to board her. The seas were running so wildly that it became necessary to jump for her rail one at a time and be pulled aboard, almost as if we were rescued rather than rescuers. The vessel was in a deplorable condition. The injured, frozen and worn-out men presented such a pitiable appearance that we forgot all about our own tussle with the storm. When we arrived on board the pump became choked and useless, but we soon gained on the water with the other two, because the vessel did not strain so badly when we anchored."

"I signaled the tug Lackawanna to come alongside, which she did, but the captain said it was impossible for him to do anything toward saving property in such a gale. He would take off the men from any distressed vessel and do anything in his power to save life, but in such a raging hurricane it was useless to attempt to tow in vessels. He had lost his own anchor and chain, and had all he could do to take care of himself and his barges. He said he would lay by us and be ready to respond to any signal to save lives."

Many Calls for Help.
"The tug Dudley Pray came alongside and her captain said substantially the same thing. Those tugs were kept busy too, for within another hour there were in the vicinity four other vessels with signals flying for assistance."

"We remained on the schooner all night, and when the wind moderated this morning waited to help get her under way. In her dilapidated condition, however, the crew refused to start in her unless we would go with them to Boston or Portland. They begged to remain, and I finally concluded to start with them, but with the understanding that they should take assistance from the first towboat whose services could be secured."

"The tug Buccaneer came from Boston, and after assisting the disabled Lackawanna until noon, came to us and agreed to tow the Endicott to Portland for \$300, after first towing us under the beach. Captain Rogers and his crew were much gratified, as the vessel was really in no condition to go to sea; and I hesitated before deciding to venture the lives of my crew around the cape in her."

Right Over Bible in School.

Lincoln, Neb., Jan. 3.—The man-damus suit to prevent the reading of the Bible, singing hymns, or offering prayer in the public schools of Nebraska has reached the Supreme Court on appeal, and is expected to be argued at an early day. The plaintiff is Daniel Freeman of Gage County and the defendants the directors of School District No. 2. For three years Mr. Freeman has made an energetic but unsuccessful fight against the use of the Bible in this school. One of the significant statements in the answer on behalf of the school district is that Leon Czolgosz repudiated the Bible and blasphemed the hymns sung in the school, and which were among the favorites of William McKinley.

WEATHER FORECAST.

Fair tonight, Saturday, continued cold.

DEMOCRATIC ALLIANCE.

A circular letter was prepared some two months ago and placed in the hands of state appointees and other trusted servants, asking for the names of twenty-five republicans and an equal number of democrats, who believed in good government. The scheme is to find fifty men in every township, regardless of party, who will unite in an effort to control the republican primaries in the interests of the present administration and against John C. Spooner.

The republican party should understand that the alliance, instigated by well-known La Follette leaders, and fostered by state officials who are acting as special agents in this new field of politics, is not in the interests of the party.

To say that the governor is not a party is to say that he is asleep, and he is not noted for drowsiness.

If the friends of the administration are all there is of the republican party, and this is what they claim,

the party is to be pitted. The movement is so transparent, that only a thought is necessary to convince any mind that it is in the interests of personal promotion at the expense of party welfare.

While democrats not unfrequently visit republican primaries, and take part in nominating candidates, where there is no show of electing a member of their own party, as was the case in the Third ward last spring, this is the first case on record where they have been invited to assist, and it shows a spirit of desperation that stoops to any policy to win.

This is the sort of a campaign that the republican party will be called upon to face.

It indicates that our friends, the enemy, are neither sleeping nor drowsy. If they can't win on an open field and by fair methods, they are ready to take to the woods and become bushwhackers.

It means that if republicanism is to retain state supremacy, that the conservative element of the party must take on responsibility and appreciate the danger of defeat.

The democratic party is so badly demoralized that it has no hope of winning the next state election. An alliance with the popularistic element of the republican party means half a loaf, which is always considered better than none.

The men behind the scheme are nothing more nor less than party traitors. They are willing to sell their birthright for a mess of porridge, and in the transfer, the well being of the party is not considered. Will the party submit to this sort of piratical warfare, or will it rise in the strength of righteous indignation, and assert itself?

This is not a visionary forecast, prompted by pessimism, but a plain statement of the situation that time is only necessary to develop. If the scheme is permitted to win, the next so-called republican convention will be a travesty on republicanism, and there will be no occasion for democratic organization in the next state campaign.

FOR THE BOYS.

There has been a new order started in Chicago that bids fair in a short time to be one of the largest in the country. It is called the Order of American Youths (O. A. Y.) and was founded but a short time ago in that city. Only boys ranging from 10 to 18 years of age are eligible and already the parent lodge, Criterion No. 1, of Chicago, has a membership of several hundred.

The purposes and objects of the order are to instill into the minds of the boys who will soon be into man's estate, loyalty to the American flag, honesty, integrity, cleanliness and all other virtues that are the arch enemy of the great red evil, Anarchy, an evil that can surely and everlasting be crushed by bringing our boys, the coming men, into the proper line of thought and reasoning.

It is the desire of the parent lodge to establish one or two more chapters in this city and they would be glad to hear from any person who would take an interest in the great movement and cheerfully explain all details, cost of equipping lodge, etc. The lodges are all self-supporting and a trifling cost to organize is all that is required. The secretary of the Parent Lodge's address is 230 Sedgwick street, Chicago, where all correspondence should be addressed.

This is patriotic philanthropy. The next generation will be temperate, moral and loyal in proportion to the care and training of the boys of today.

A little neglect is all that is necessary to raise a crooked tree, while a small amount of care seldom fails in good results. The bending of the twig determines, the mind of the boy is susceptible, and thousands of men go to ruin every year, because some guiding hand was lacking back in the years of boyhood.

Janesville and every other city can

afford to endorse this practical movement by organizing orders of American Youth.

The creed is so broad that it should interest people of every church and no church. Loyalty to the American flag, integrity, honesty, cleanliness, and all other virtues that are the enemies of red handed anarchy. Public spirit and national welfare, should prompt action. When the boys of the land are organized under this banner, these influences will be felt.

THE OUTLOOK FOR 1902.

The outlook for Janesville for the year just opened is very encouraging. The business interests of the city were never in a more prosperous condition and the spirit of enterprise was never more apparent.

The completion of the Jackman Block, which is now about ready to occupy, and which is modern in every respect, is a much needed improvement and adds greatly to the beauty and utility of the business center. Other improvements are likely to follow, and while the growth of the city is not rapid, it is substantial.

It is more than probable that during the year electric lines will be completed, and the surrounding country made more accessible. The business of the city is in a healthy condition, and while competition in many lines is sharp, the rivalry is friendly, and capital is showing satisfactory returns for investment.

The government of the city has been more or less severely criticised, and yet it is as good as the people elect to have it. If not satisfactory, the spring election is not very far away, and it remains for the voters to improve it, if they so desire.

The moral atmosphere of the place is wholesome, and with a series of New Years resolutions, that everybody is supposed to adopt, there is every reason why the year should show progress along these lines. The outlook for the year in every respect is good, and if the individual citizen takes on a share of personal responsibility, it may be made the best year in the history of the city.

MR. PEAVEY'S PHILANTHROPY.

Mr. Peavey, the Minneapolis capitalist, who died in Chicago recently, was the newsboys' friend, for he started in life as a newsboy himself. When he went to Minneapolis he proposed to the newsboys of the city that for every dollar they would save he would contribute a dollar. One hundred boys responded to the offer, but only thirty-five of them held out through the year.

Mr. Peavey believed in boys, and they always recognized him as a friend! His name may not be recorded in history as one of the great philanthropists of his day, but his name and memory will live in the hearts of many men whom he encouraged in the days of boyhood.

This is practical philanthropy, that is not difficult to imitate. It doesn't cost much to be kind to a boy, and yet it means much to the men of the next generation. The world needs more men like Frank Peavey—the newsboy's friend.

A DEEP LAID SCHEME.

That circular letter sent out by well known La Follette leaders, requesting the names of twenty-five democrats and the same number of republicans, is a deep laid scheme to capture the caucuses next summer and elect a legislature unfriendly to Senator Spooner. It means that if the governor fails of renomination, that he aims to be in line for the senate. Just how "Uncle Ike" figures in the deal, except that he has the pleasure of holding the bag, is not yet apparent.

France has a Carnegie, by the name of Lebaudy. His representative was in Chicago recently to arrange for establishing in connection with the university a French industrial department, for the purpose of studying American industries. Mr. Lebaudy appropriated one million dollars for building and equipment, and will endow the school. Six hundred pupils will be accommodated, France to pay transportation and all expenses. A fine compliment for America.

Bugie Hector, the Chicago editor who shot a highwayman, on Calumet Avenue, New Year's night, is entitled to a medal. It may be unlawful to carry concealed weapons, but Hector will not be held accountable under the circumstances.

Mr. Bryan's claim that the report concerning the Commoner being short lived, is without foundation. He says the paper is in a prosperous condition, and receiving liberal support, and that he proposes to make journalism his life work.

The State Teachers' convention is about as much of a political organization as a party gathering. The office of president appears to be considered a great honor.

PRESS COMMENT.

Warlike Colonel Watterson advises that we occupy Canada when she gets fractious. We tried it colonel, a long, long time ago, when the populations were relatively the same. Our school histories properly say very little about what happened. Let us not occupy ourselves with occupations; let us rather pray for

our young sister whenever she goes astray.—Milwaukee Sentinel.

Milwaukee Journal: In wishing Gov. La Follette a Happy New Year, The Journal cannot refrain from hinting that a good deal of it depends upon himself.

Racine Journal: The Wisconsin ice export tax is being tested now in the courts. If the law is held constitutional, the next legislature can as well as not promptly enact a tariff law, both for exports and imports, for really if this ice tax law is legal the other certainly is.

A news item says Private Secretary Murphy is out again after an attack of the grip. It has been remarked that if he was "out" some time ago there might be less friction about the executive chamber.—Oconomowoc Reporter.

Superior Telegram: The Milwaukee Free Press overplayed its hand when it protested against the appointment of Henry C. Payne, as postmaster general. In this case it neither directs, nor reflects public opinion.

When the Republican League was organized at Milwaukee last summer the promoters claimed to be acting for the good of the party as a whole, and as a conservatory of republican principles, and not in the interests of any candidate or clique. All that it asked was that a man should be a republican and adhere to the traditions and principles of the party.

Those were the principles as laid down by the promoters and it would seem that no good republican would have any difficulty in subscribing to them.—Eagle River Review.

Figure a little whether it is not better to stick to old and tried leaders of the republican party, instead of taking up with new men who advocate methods and measures that are untried and to some extent revolutionary. Remember that the republican party never was beaten in Wisconsin except when it disregarded the opinions of the leaders and followed off men who had specious tongues, but lacked the wisdom of experience.—Alma Centre News.

If the La Follette press would occasionally give the readers an opportunity to judge of its fairness in substantiation of the repeated assertion that their side of the case is the only one, and forget personalities long enough to show this, some credit might be given to the claim.—Ripon Press.

SMILES.

"Are you married or unmarried?" asked the theatrical manager of the applicant for an engagement.

"Unmarried," replied she. "I've been unmarried four times."—Detroit Free Press.

Caller—Won't you be glad Tommy, when your baby brother is as big as you are now?

Tommy—You bet I will. Then he'll be liked for some of the things I git licked fur now.—Catholic Standard.

Wife—I am going downtown this morning to try and match a piece of silk.

Husband—Very well, my dear; I will tell the cook to have some dinner for you, and I'll put the children to bed myself.—Tic-Bits.

Colonel Richey Gruff—I understand that my daughter is determined to marry you. Well, I want to say right now that she's a fool.

Jack DeWitt—Ah! Hereditary, I suppose.—Catholic Standard and Times.

"Mario told me that after reading those French articles against the wearing of corsets, she left hers off."

He—Of course, dear, I'll be back from the club in time for the opera, but in case it should turn out to be impossible, I'll send you a note by a messenger.

She—That's not necessary; it just dropped out of your coat pocket.

"Gracious," how fast you're running," remarked the dressmaker's lappard. "You must be in a great hurry!"

"I should say so," replied the sewing machine. "I've got o'make a train."—Philadelphia Press.

"Harry, Mary, what on earth is that child crying about out there in the garden? Give him what he wants and be quick about it!"

"Yis mum."

"Mary, Mary, what has he got now?"

"Wasps' nest, mum."—Washington Times.

WILL BEGIN TO CUT THE ICE CROP

The ice on the River is now from 18 to 20 inches thick, and of Fine Quality

The Peoples' Ice company will begin its annual harvest of ice on the river above the railroad bridge on Monday morning next. The ice in the river is now from eighteen to twenty inches thick and of the finest quality with very little if any snow on top.

The company has three large houses to fill, two being located just above the railroad bridge and the third up the river beyond the Island. About sixty hands will be employed in the harvest which will last until the buildings are all filled.

The ice has been unusually clear of snow this winter which is a great advantage to the company as they usually have to keep the ice scraped to get a sufficient thickness and often the melting snow makes the top of the ice white and poor. The buildings have all been put in shape for the harvest and will be ready for the first run of ice Monday morning. A traction engine will be used to draw the ice up the runways from the river to the houses.

WILL BUILD HUGE TRADE FLEET.

London, Jan. 3.—A powerful British-American syndicate has planned to build a fleet of refrigerator steamers to sail weekly between New York, Boston and Bristol. Later on it is proposed to establish a line between New Orleans and Bristol.

BADGER STATE TELEPHONE CO.

Annual Meeting Will Be Held at the Hotel Myers on Thursday, January 16.

The annual meeting of the Badger State Long Distance Telephone Co. will be held at the Hotel Myers in this city on January 16th. At that time the report of the re-organization committee will be read and officers for the ensuing year elected. The committee of twelve appointed at the last stockholders meeting in this city composed of H. D. Thomas, Blanchardsville; A. S. Baker, Evansville; F. W. Coon, Edgerton, and H. S. Sloan, Edgerton; A. S. Maxson, Sharon; H. A. Molenpah, Clinton; J. C. Murdoch, Brodhead; D. H. Pollock, Beloit; D. C. Converse, Fort Atkinson; E. L. Von Suessmilch, Delavan, and C. W. Twining of Monroe, met at the Hotel Myers today and made arrangements for holding the meeting.

The committee, who had charge of the raising of funds to pay off the outstanding bonded indebtedness of the line met with good success in securing subscriptions from among the stockholders and there is very little question but that the entire indebtedness will be wiped out at once.

The company is now on a paying basis and all it needs is a little good management to make it a gilt-edged piece of property.

Had a Close Call

Michael Farrell, who drives the U. S. Mail wagon had a close call to being hit by a Northwestern freight engine this morning, at the Academy street crossing. Officer Brown caught his horse by the head and got the outfit off the track in time to keep it from being struck. The engineer on the freight saw the old man's danger and put on the air hard. He had a long train back of him and it is doubtful if he could have stopped in time. Mr. Farrell is quite old and feeble and does not keep as close watch as when he was young. Some morning he will meet with a serious accident.

Carl Both Funeral

The funeral services over the remains of the late Carl Both were held this afternoon at 1:30 o'clock from his home, 25 Armour street. The Rev. C. J. Koerner, pastor of St. Paul's Lutheran church officiated. A large number of friends and relatives were present and paid their last respects to the deceased. The interment was at Oak Hill cemetery.

Surprise Rev. Mr. Vaughan.

Rev. Richard M. Vaughan, pastor of the Baptist church, was delightfully surprised on New Year's day when a handsome Morris chair and foot rest were delivered at the North High street parsonage with greetings of the new year from some of the members of his church. The chair is of golden oak, heavily carved and richly upholstered, and Rev. Vaughan is very proud of his new possession and happy over the good will to which it testifies.

A Pretty Luncheon

At the pretty luncheon given by Mrs. W. G. Wheeler at her pleasant home, 108 East street south, yesterday afternoon, Mrs. Ralph Wheeler of Chicago and Miss Mabel Jackman were the guests of honor. The afternoon was most enjoyably spent playing six-handed bridge, and the prize was won by Mrs. H. M. Putker. A delicious luncheon, faultlessly served, followed the card playing.

In the Circuit Court

In the circuit court today in the case of William Byrne vs. Frank D. Kimball Judge Dunwiddie decided the defendant should have judgment for his costs in accordance with the verdict.

In the case of C. W. Vankirk vs. John Getts which was taken to the circuit court from Justice Earle's court on a writ of certiorari the decision of the justice in favor of Vankirk was removed. The action of Margaret Clark vs. Herman Freifeld was ordered discontinued.

Some Hills Are Slippery.

A little good missionary work could be done by the street commissioner with a few loads of cinders or sand. A number of the hills on the east side of the river are so slippery that it is almost impossible to drive a horse down them without having it fall down. The worst places are on East Milwaukee street, Court street, South First, South Second, Prospect avenue and Fourth avenue. Some cinders or gravel distributed along the slippery places would save horses many a bad fall and probably save a runaway.

One of the loafers that hang around the First National bank corner was given a proper beating last night for insulting a young lady that happened to be passing. The young man who administered the punishment could find plenty of opportunities to do good work of the same kind in other parts of the city, not very far distant from the bank corner.

Having purchased the interest of R. E. Winbigler in the Savings Store, we have connected the two stores by an arch, and will run both places as one store. All lines in the Savings Store will be closed out with the exception of the crockery and picture-framing departments, which we will increase to a full and complete stock. Skelly & Wilbur.

Contractor John Peters has just about completed the piling driving for the new bridge across Rock river at the foot of Jackson street, for the Beloit, Delavan Lake and Janesville electric road. As soon as this work is completed Contractor Peters will go to Beloit, where he will build a bridge about a quarter of a mile long across Rock river for the same company. As soon as these bridges are completed it will take but a short time to finish up the grading and get the line ready for the ties and rails.

Thomas Quinn had his hands so badly frozen on the night of Dec. 20, that it was found necessary yesterday to amputate four fingers on the left hand and the little finger of the right hand. Mr. Quinn resides in the country and while on his way home that night his wagon broke down. He worked bare handed repairing the break and thus froze his hands. Dr. Joe Whiting, assisted by Dr. S. B. Buckmaster, performed the operation.

REV. E. WILL HAS REACHED THIS CITY

Escaped Man from the Mendota Hospital Walked the Entire Distance from Madison.

Rev. E. Will, who escaped from the state hospital for the insane at Mendota on Monday, appeared in this city where his family resides this morning, having walked the entire distance from Madison. An attempt to disguise himself and thus escape detection was evident. A full beard which he wore when he left Madison had been shaved off and he wore a fur overcoat instead of the mackintosh in which he began his journey.

The incident is not lacking in pathos, anxiety to see his wife and children having led Rev. Will to elude the attendants at the state institution and to make the long journey from Madison to this city on foot.

Rev. Will's insanity is harmless and first manifested itself in eccentricity while he was preaching in Hanover. After the removal of the family to this city, Rev. Will's malady developed until it was thought wisest to send him to the state hospital for treatment. He does not realize his condition and said this morning that it was all useless trying to keep him at Mendota as there was nothing the matter with him. In conversation with friends he talked continually of his children and his eagerness to see and be with them was very pathetic.

AFTER GRIPPE

Vinol Will Restore Strength and Appetite Quickly.

Take It To Prevent The Grippe.

The grippe is a disease which seems to become more prevalent every year. It becomes almost a habit. Those who have had it once can scarcely get through the following winter without having it again, sometimes twice.

Everyone should keep their systems toned up. Fortify the human citadel so that it will be impregnable to the onslaughts of this most distressing of all maladies.

There is nothing that will keep you in condition and help better to ward off diseases than Vinol. There are many people who last winter took Vinol simply as a preventative and have proved conclusively that by keeping themselves in good condition they escaped the grippe that attacked other members of the family who neglected to take the same precautions.

We can tell those who have had the grippe what to take to help them towards speedy recovery. It is this same Vinol. Take it when you first have the grippe. It will not go so hard with you. Your recovery will be quicker, and when you are able to be out, you will not suffer from those terrible after effects that make this disease so dangerous.

Remember that Vinol is strengthening, flesh creating and an arrester of all wasting diseases.

"I bought a bottle of Vinol for my wife and two children who were suffering from the after effects of grippe. They had taken several remedies without doing them any good. The effect of the medicine was so marked that I bought another bottle which made a complete cure, and restored my wife and children to perfect health." N. B. Brown, travelling agent for the Phoenix Mutual Life Insurance Co., Atlanta, Ga.

Our good opinion of Vinol increases every day. Our faith in it is unbounded. To prove to you that we believe all we say we will gladly refund its cost if you do not find that it is everything we claim it to be.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local applications, such as emetics, purgatives, etc. to cure it.

This disease has now been proved to be a constitutional disease, and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is in tablet form and contains 10 drops to a tea-spoonful. It acts directly on the mucous and mucous surfaces of the system. They offer a hundred dollars for any case it fails to cure for cataracts and testimoniols.

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition.

As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion and nutrition, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

In Looking For The BEST CHEESE

you will find that the richest, creamiest, mildest and most satisfying is the

We have been fortunate in securing this cheese as the demand for it is greater than the production and it is almost impossible to get the factory to add a new name to their list of customers. It costs more than any other, but the demand proves that it is more than worth it.
